VS50TC PORTABLE REFRIGERATOR

Vacc-Safe

This Vacc-Safe 50L portable medical refrigerator is suitable to transport products from -20 to 6ºC. With castors and an extendable handle it enables users to move larger volumes of medicines and vaccines easier. Supplied with a Medi-Log 2 for data recording and alarms

Security
Audible and Visual Alarms. Safety Lock.

Single LED Display
High accuracy single LED displays.

Variable Usage

High efficiency and energy saving DC compressor, high reliability, fast refrigeration speed. This unit can be used for refrigeration and deep freezing.

Input voltage.

240 Volt and 12 Volt. Dual-use car and home, car 12/24V DC or household 100-240V AC with power adapter for work.

Item	Model No.	VS50TC
Technical data	Cabinet Type	Portable
	Cooling Type	Semiconductive
	Weight (kg)	18kg
	Refrigerant	R134a
	Total Storage Volume(L)	50L
	External Material	ABS
	Inner Material	ABS
Control	Controller	Microprocessor
	Display	LED
	Temperature Accuracy(℃)	0.1
	Temperature Range	-20 to 6ºC
Dimensions	Product Dimensions(mm)(wxdxh)	630*404*530
	Interior Dimensions(mm)(wxdxh)	330*250*420
	Packing Dimensions(mm)(wxdxh)	630*404*540
Electrical data	Power Supply	240V AC / 12-24V DC
	Rated Power(W)	55W
Functions	High Temperature Alarm	Y
	Low Temperature Alarm	Y
	Power Failure Alarm	N
	Caster	Y
	Holding Time 25ºC Empty	>1
	Holding Time 25ºC Loaded	>2
