

Vacc-Safe portable refrigerators are suitable for transporting products between 2 - 6°C. This 6L unit is suitable for use on an aircraft due to not having a compressor.

**Security**  
Audible and Visual Alarms.  
Safety Lock.

**Built-In Backup Battery**  
Built in battery to display  
temperature when power is off.

**Single LED Display**  
High accuracy single  
LED displays.

Item	Model No.	VS6TC
<b>Technical data</b>	Cabinet Type	Portable
	Cooling Type	Semiconductive
	Weight (kg)	3.5
	Refrigerant	N/A
	Total Storage Volume(L)	6L
	External Material	ABS
	Inner Material	Aluminium plate
<b>Control</b>	Controller	Microprocessor
	Display	LED
	Temperature Accuracy(°C)	0.1
	Temperature Range	2 to 6°C
<b>Dimensions</b>	Product Dimensions(mm) (wxdxh)	320*265*260
	Interior Dimensions(mm) (wxdxh)	230*140*170
	Packing Dimensions(mm) (wxdxh)	320*265*260
<b>Electrical data</b>	Power Supply	240V AC / 12-24V DC
	Rated Power(W)	60W
<b>Functions</b>	High Temperature Alarm	Y
	Low Temperature Alarm	Y
	Power Failure Alarm	Y
	Caster	N
	Holding Time 25°C Empty	>1
	Holding Time 25°C Loaded	<2

## Temperature Retention.

Up to 2 Hour Temperature hold without power (32°C ambient temperature load situation)

## Input voltage.

240 Volt and 12 Volt. Dual-use car and home, car 12/24V DC or household 100-240V AC with power adapter for work.
